

# LMS (Moodle)

The Learning Management System (LMS), or Moodle, is AAPoly's central point where information about courses, subjects, events and key dates are communicated to students. Through the LMS you can access study resources and academic assistance, find some friends, join social networks and keep up-to-date with campus news.

Link: <http://studentlms.aapoly.edu.net.au/login/index.php>

## Navigating the LMS

On the home page of the LMS you will find the following page with News Announcements, Timetables, Study Help, My Courses, the Calendar and Navigation (see image below). It is a good idea to familiarise yourself with these parts of the LMS prior to your studies.

The screenshot displays the LMS home page with several key sections:

- LATEST ANNOUNCEMENTS:** A list of recent updates, including 'Professional Development Session' and 'Young Tourism Network'.
- TIMETABLES:** A list of available timetables for different campuses.
- STUDY HELP:** A list of resources for academic writing, integrity, and subject resources.
- NAVIGATION:** A menu with options like Home, Dashboard, Site pages, and My courses.
- MY COURSES:** A list of enrolled courses such as 'Higher Education English Indicator Test' and 'Go Get Success'.
- CALENDAR:** A calendar view for November 2018.

## Accessing your subjects

You can access your subject page via the My Course list in the middle of the page (see above) or from the My Courses icon on the top navigation bar at the top left of the screen:

You should see a list of the courses that you are enrolled in. If you click on one of your subjects you will get information such as the following:

## 2018-S2-AFA1105 Accounting for Management

### Subject Overview

The main goal of this subject is to provide a comprehensive introduction to accounting concepts and skills, with particular opportunity to explore the accounting process from an end-user perspective to enable them to make more informed decisions. This subject provides an introduction to accounting concepts and skills, with particular emphasis placed on the use of accounting for planning, control, motivation, and decision-making.
