## Business Services Training Package

In today's world, businesses are run with projects and most organisations have employees working in various projects. Regardless of whether an individual wants to build a career in marketing, accounting, management, IT or any other field, they will have to embrace several projects in their career. The Project Management and Program Management qualifications are sought after qualifications in the 21st century that students who have completed these qualifications will have a competitive edge over other candidates. Students who complete these courses will develop skills and knowledge to lead the development, implementation and evaluation of a project from start to finish.

### Course Outline

This qualification reflects the role of individuals who apply project management skills and knowledge. They may manage projects in a variety of contexts, across a number of industry sectors. Individuals at this level display project leadership and management roles and are responsible for achieving project objectives. They possess a sound theoretical knowledge base and use a range of specialised, technical and managerial competencies to initiate, plan, execute and evaluate their own work and/or the work of others.

### Course Requirements

Students have to complete the BSB51415 Diploma of Project Management qualification or have completed two years equivalent full-time relevant workplace experience at a significant level within a project or program environment within an enterprise.

This BSB51415 Advanced Diploma of Program Management is made up of 4 core units. In addition, 8 Electives will be offered:

Code	Core Units
BSBPMG610	Enable program execution
BSBPMG611	Facilitate stakeholder engagement
BSBPMG612	Implement program governance
BSBPMG613	Manage benefits
Code	Elective Units
BSBWOR501	Manage personal work priorities and professional development*
BSBLDR501	Develop and use emotional intelligence*
BSBPMG617	Provide leadership for the program
